Dear Nargisji

It is with deep gratitude that we wish to thank WEIF, and most particularly yourself, for all the support you gave us over the past 6 years to build Nareshwadi Learning Centre into the learning hub that it is today.

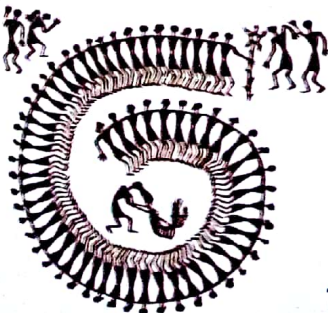

It is because of your untiring energy that you raised resources for us to curb the migration of poverty stricken tribal women who were forced to abandon their homes for more than half the year in search of employment in towns where their children grew up in unfamiliar surroundings. Today, more than 1200 women and their families live in their villages and have converted their meagre landholdings into viable small farms generating income and stopping migration. And more than 2500 children are in school, immunized and in good health!

Your faith in improving human capacity to meet challenges and think out of the box through training has helped our teachers upgrade teaching-learning methodologies which is helping the children in our tribal school reach great heights. Our alumni are farmers, engineers, nurses, teachers etc forging their way in the world of competition with flying colours!

We thank you for reinforcing our vision "Empowering children to reach their dreams."

Sincerely

Patricia Gokhale PhD
CEO
